

## **InfraScience Optimization Series Features Current Trends in Infrastructure and new Microsoft Technologies**

*Events offer Demonstrations Showcasing Practical Solutions*

Alpharetta, GA - (September 8, 2008) - InfraScience announced today its fall schedule of events. The InfraScience Optimization Series includes a variety of events hosted at Maggiano's Little Italy - Perimeter relating to hot infrastructure topics. The lineup includes:

- **Unified Communications – Go Green**

**September 30, 2008**

**11:30AM – 1:30PM**

Have you really thought about the planet? How can you or your company help? The GOING GREEN move is definitely on when it comes to reducing an employee's need to commute or travel for business by leveraging applications such as telephony and conferencing. Let Microsoft Office Communications Server 2007 allow you to GO GREEN by letting increasing numbers of employees telecommute. - **Virtualization: Ready for Prime Time?**

**November 6, 2008**

**11:30AM – 1:30PM**

Hyper-V is Microsoft's dive into the virtualization arena against other products such as VMware ESXi and XEN. The big question is Hyper-V ready for prime time? Can it be a replacement for your current virtualization solution or be a new solution for your environment? InfraScience can help you fully leverage all of the features of Microsoft's new Server 2008 Hyper-V, the next-generation hypervisor-based server virtualization technology. This optimization event will provide an in depth look at Hyper-V and discuss managing diverse virtualization environments with System Center Virtual Machine Manager 2007 or 2008. If you are interested in virtualization, you do not want to miss this event! To register for this event visit:
